SUMMARY

IT Executive and Full Stack Web Developer experienced in developing and maintaining web applications using PHP, Laravel, MySQL, React, and Inertia.js. Skilled in MVC architecture, Eloquent ORM, database design, server-side integration, CMS management, website deployment, manual QA/UAT, technical troubleshooting, and client support. Experienced in project coordination, technical documentation, and AI-powered development tools such as GitHub Copilot, Claude, and Codex to improve development efficiency.

WORK EXPERIENCE

IT Executive

June 2025 – Present

Laman Teknologi Sdn. Bhd.

- Develop, maintain, and enhance web applications using PHP, Laravel, MVC architecture, and Eloquent ORM.
- Design and manage MySQL databases and server-side integration with React/Inertia.js.
- Develop and maintain PMO, CMS, support, event, and internal company systems.
- Implement system enhancements, website updates, frontend improvements, and client requirements.
- Conduct manual QA and UAT, troubleshoot technical issues, and support system deployment.
- Gather client requirements, prepare technical documentation, and coordinate implementation activities.
- Served as Project Manager for PMO system implementation, coordinating requirements, documentation, and project progress.
- Utilize GitHub, AI-assisted development tools, and modern development workflows to improve productivity

IT Support Technician Intern

September 2022 – March 2023

Akademi Usahawan Mikro Sdn. Bhd.

- Assisted clients with website setup, CMS management, domain connection, and configuration.
- Provided technical support and troubleshooting for website and system issues.
- Supported website maintenance, subscription monitoring, and update coordination.
- Facilitated digital business seminars and guided entrepreneurs on website and social media usage.
